

PRESS RELEASE
For immediate release

OPSENS ANNOUNCES CLOSING OF \$1.75 MILLION PRIVATE PLACEMENT

Quebec City, Quebec, June 25, 2009 – Opsens Inc. (TSX VENTURE EXCHANGE: OPS) (“Opsens”) Opsens is pleased to announce the closing of a private placement (the “Offering”) of 2,916,667 common shares at a price of CAD \$0.60 per share for gross proceeds of CAD \$1.75 million.

Opsens paid a finder's fee cash commission of CAD \$87,500 to M Partners Inc. Opsens has also issued non transferable warrants to the brokers (the "Broker Warrants") at the closing. The Broker Warrants entitle the brokers to acquire 204,167 common shares of Opsens at CDN \$0.60 a share for a period of 24 months from the closing of the Offering. The securities issued pursuant to the Offering will be subject to a 4-month restricted period expiring on October 26, 2009.

The net proceeds of this Offering totals approximately CAD \$1.6 million and will be used for working capital purposes, acquisitions and marketing expenses. Opsens wants to continue developing the oil and gas market, particularly targeting Alberta oil sands producers using Steam Assisted Gravity Drainage (SAGD), with its patented fiber optic OPP-W sensor for pressure and temperature. This unique technology has proven its reliability and is generating interest from major producers because in addition to measuring temperature and pressure in real time, it increases production and reduces operation costs.

About Opsens (www.opsens.com)

Opsens is a leading developer, manufacturer and supplier of a wide range of fiber optic sensors and associated signal conditioners based on proprietary patented and patent pending technologies. Opsens' sensors provide long-term accuracy and reliability in the harshest environments. Opsens provides sensors to measure pressure, temperature, strain and displacement to original equipment manufacturers (OEM) and end-users in the oil and gas, medical, high-power transformers, and laboratory fields. Opsens provides complete technical support, including installation, training, after-sales service, for its fiber optics systems that are regulated by the ISO 9001-2000 norm.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

Forward-looking statements contained in this press release involve known and unknown risks, uncertainties and other factors that may cause actual results, performance and achievements of Opsens to be materially different from any future results, performance or achievements expressed or implied by the said forward-looking statements.
