Additional information on the consolidated interim statements of cash flows is presented in Note 8.

The accompanying notes are an integral part of the condensed consolidated interim financial statements.

1. Incorporation and Description of Business

Opsens Inc. (Opsens or the Company) is incorporated under the Business Corporations Act (Quebec). Opsens focuses mainly on the measure of Fractional Flow Reserve (FFR) in interventional cardiology but also supplies a wide range of miniature optical sensors to measure pressure and temperature to be used in a wide range of applications that can be integrated in others medical devices. Opsens offers an advanced optical-based pressure guidewire (OptoWire) that aims at improving the clinical outcome of patients with coronary artery disease. Opsens is also involved in industrial activities through its wholly-owned subsidiary Opsens Solutions Inc. (Solutions). Solutions develops, manufactures and installs innovative fibre optic sensing solutions for critical and demanding industrial applications. The Company's head office is located at 750 Boulevard du Parc-Technologique, Quebec City, Quebec, Canada, G1P 4S3.

2. Basis of Preparation

Statement of Compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB) applicable to the preparation of interim financial statements, including International Accounting Standards (IAS) 34, *Interim Financial Reporting* and using the same accounting policies and methods of computation as the most recent annual financial statements, except for the changes in accounting policies described below. These condensed consolidated interim financial statements should be read in conjunction with the annual financial statements for the year ended August 31, 2018, which have been prepared in accordance with IFRS as issued by the IASB.

Changes in Accounting Policies

The accounting policies and basis of measurement applied in these condensed consolidated interim financial statements are the same as those applied by the Company in its consolidated financial statements for the year ended August 31, 2018, except as disclosed below.

New standard adopted by the Company during the period

IFRS 9, Financial Instruments

IFRS 9 *Financial Instruments* (IFRS 9) replaces the provisions *of* IAS 39 *Financial Instruments: Recognition and Measurement* (IAS 39) that relate to the recognition, classification and measurement of financial assets and financial liabilities, de-recognition of financial instruments, impairment of financial assets and hedge accounting.

The adoption of IFRS 9 on September 1, 2018 resulted in changes in accounting policies, however there were no adjustments to the amounts recognized in these condensed consolidated interim financial statements.

The impairment of financial assets, including trade and other receivables, is now assessed using an expected credit loss model: previously, the incurred loss model was used. The impact of applying the expected credit loss model was not material.

The Company applied the modified retrospective method upon adoption of IFRS 9 on September 1, 2018. This method requires the recognition of the cumulative effect of initially applying IFRS 9 to deficit and not to restate prior years. The application of this new standard had no impact on deficit.

2. Basis of Preparation (continued)

Changes in Accounting Policies (continued)

New standard adopted by the Company during the period (continued)

Here are the changes in accounting policies related to IFRS 9:

Financial instruments

Financial assets at fair value through profit and loss (FVTPL): Financial assets carried at FVTPL are initially recorded at fair value and transaction costs are expensed in the statement of loss and comprehensive loss. Realized and unrealized gains and losses arising from changes in the fair value of the financial assets held at FVTPL are included in the statement of loss and comprehensive loss in the period in which they arise.

Financial liabilities at FVTPL: These financial liabilities are initially recognized at fair value, and transaction costs directly attributable to issuing the financial liabilities are expensed in the statement of loss and comprehensive loss. Financial liabilities that are required to be measured at FVTPL have all fair value movements, including those related to changes in the credit risk of the liability, recognized in the statement of loss and comprehensive loss.

Financial assets at fair value through other comprehensive income (FVTOCI): Investments in equity and debt instruments at FVTOCI are initially recognized at fair value plus transaction costs. Subsequently they are measured at fair value, with gains and losses arising from changes in fair value recognized in other comprehensive loss and comprehensive loss in the period in which they arise without subsequent reclassification to net income in the case of equity instruments.

Financial assets at amortized cost: A financial asset is measured at amortized cost if the objective of the business model is to hold the financial asset for the collection of contractual cash flows, and the asset's contractual cash flows are comprised solely of payments of principal and interest. They are classified as current assets or non-current assets based on their maturity date and are initially recognized at fair value and subsequently carried at amortized cost less any impairment.

Impairment of financial assets at amortized cost: The Company recognizes a loss allowance for expected credit losses on financial assets that are measured at amortized cost. As at September 1, 2018, the loss allowance was nil.

The following table illustrates the classification and measurement of financial instrument under IFRS 9 and IAS 39 at the date of the initial application:

	IAS 39 – Original measurement category	**IFRS 9 – New measurement category**
Cash and cash equivalents	Loans and Receivables	Amortized Cost
Trade and other receivables	Loans and Receivables	Amortized Cost
Accounts Payable and Accrued Liabilities	Amortized Cost	Amortized Cost
Long-term debt	Amortized Cost	Amortized Cost

2. Basis of Preparation (continued)

Changes in Accounting Policies (continued)

New standard adopted by the Company during the period (continued)

IFRS 15, Revenue from Contracts with Customers

Effective September 1, 2018, the Company has adopted IFRS 15 *Revenue from Contracts with Customers* (IFRS 15). This new standard was applied using a modified retrospective approach. The adoption of IFRS 15 resulted in changes in accounting policies. However, it did not have impact on the timing or measurement of the Company's revenue of applying IAS 18 or IFRS 15 and no adjustment to the opening balance of deficit as at September 1, 2018 has been recorded as result of adopting IFRS 15.

Here are the changes in accounting policies related to IFRS 15:

Revenue Recognition

The Corporation sales products through a direct sales force and to distributors. The Corporation recognizes sales revenues for both medical and industrial segments upon shipment of products to customers, when the control has been transferred to the buyer, there is no continuing management involvement with the products, the recovery of the consideration is probable and the amount of revenue can be measured reliably. Sales are measured at the fair value of the consideration to which the Corporation is entitled to receive in exchange for transferring the promised products, net of any trade and volume discounts.

Milestone

Milestone income is recognized over the agreement residual terms at the point in time when it is highly probable that the respective milestone event criteria is met, and the risk of reversal of revenue recognition is remoted.

New and amended standards issued but not yet effective

IFRS 16, Lease

On January 13, 2016, the IASB released IFRS 16, *Leases*, which replace IAS 17, *Leases*, and the related interpretations on leases such as IFRIC 4, *Determining whether an arrangement contains a lease*, SIC 15, *Operating leases – Incentives* and SIC 27, *Evaluating the substance of transactions in the legal form of a lease*. This new standard specifies how to recognize, measure, present and disclose leases. It also provides a single lessee accounting model, requiring lessees to recognize assets and liabilities for all leases unless lease term is 12 months or less or the underlying asset has a small value. Accounting for the lessor remain substantially unchanged. The standard is effective for periods beginning on or after January 1, 2019, with earlier application permitted for companies that also apply IFRS 15, *Revenue from Contracts with Customers*. The Corporation is currently assessing the extent of the impact of adoption of the standard.

2. Basis of Preparation (continued)

Changes in Accounting Policies (continued)

New and amended standards issued but not yet effective (continued)

IFRIC 23, Uncertainty over income Tax Treatments

On June 7, 2017, the IASB issued IFRIC 23, Uncertainty over Income Tax Treatments (the Interpretation). The Interpretation provides guidance on the accounting for current and deferred tax liabilities and assets in circumstances in which there is uncertainty over income tax treatments. The Interpretation is effective for annual periods beginning on or after January 1, 2019. Earlier application is permitted. The Interpretation requires an entity to:

- contemplate whether uncertain tax treatments should be considered separately, or together as a group, based on which approach provides better predictions of the resolution;
- reflect an uncertainty in the amount of income tax payable (recoverable) if it is probable that it will pay (or recover) an amount for the uncertainty; and
- measure a tax uncertainty based on the most likely amount or expected value depending on whichever method better predicts the amount payable (recoverable).

The Company has not yet assessed the impact of this new interpretation.

3. Deferred Revenues

Licensing Agreement

On April 15, 2014, the Company announced it had entered into an agreement with Abiomed, Inc. ("Abiomed") in connection with its miniature optical pressure sensor technology for applications in circulatory assist devices. The Company has granted Abiomed an exclusive worldwide license to integrate its miniature pressure sensor in connection with Abiomed's circulatory assist devices. Under the agreement, Abiomed will pay Opsens an aggregate amount of US$6,000,000. An amount of $1,647,000 (US$1,500,000) has been paid on closing, while the balance will be disbursed based on the achievement of certain milestones. As at February 28, 2019, the Company still has an amount of US$250,000 left to receive from this agreement.

During the six-month period ended February 28, 2019, the Company achieved two technical milestones related to the agreement with Abiomed and consequently, it allows the Company to record, in the consolidated statements of loss and comprehensive loss as licensing revenues an amount of $2,923,800 (US$2,250,000) ($936,900 (US$750,000) for the six-month period ended February 28, 2018).

4. Long-term Debt

	As of February 28, 2019	As of August 31, 2018
	$	$
Contributions repayable to Ministère des Finances et de l'Économie (MFE), without interest (effective rate of 9%), repayable in five equal and consecutive annual instalments of $82,718, maturing in February 2020.		
Debt balance	**82,718**	165,436
Imputed interest	**(7,113)**	(13,999)
	75,605	151,437
Contributions repayable to Canada Economic Development, without interest (effective rate of 13.5%), repayable in 20 equal and consecutive quarterly instalments of $15,000, maturing in August 2020.		
Debt balance	**90,000**	120,000
Imputed interest	**(9,322)**	(15,660)

Contributions repayable to Canada Economic Development, without interest (effective rate of 12%), repayable in 59 equal and consecutive monthly instalments of $3,333 and a final payment of $3,353, maturing in October 2023. The difference between amounts received and estimated fair value is recognized as government grants.		
Debt balance	**190,001**	200,000
Imputed interest	**(44,349)**	(49,473)
	145,652	150,527
Secured loan from Export Development Canada, bearing interest at prime rate plus 2.0%, secured by a movable hypothec on the universality of the Company's present and future property, plant and equipment and intangible assets, payable in 48 monthly instalments of $10,417, maturing in April 2020. Amounts received are net of transaction costs of $2,500.	**145,514**	207,802
Term loan, bearing interest at prime rate plus 0.25%, secured by a movable hypothec on the universality of the Company's present and future property, plant and equipment and intangible assets, payable in 48 monthly instalments of $18,750, maturing in May 2020. Amounts received are net of transaction costs of $9,000.	**280,139**	391,630
Amounts to be carried forward	**727,588**	1,005,736

4. Long-term Debt (continued)

	As of February 28, 2019	As of August 31, 2018
	$	$
Amounts to be carried forward	**727,588**	1,005,736
Term loan, bearing interest at prime rate plus 0.25%, secured by a movable hypothec on the universality of the Company's present and future property, plant and equipment and intangible assets, payable in 48 monthly instalments of $4,500, maturing in February 2022. Amounts received are net of transaction costs of $2,160.	**160,789**	187,376
	888,377	1,193,112
Current portion	**554,838**	539,439
	333,539	653,673

5. Convertible Debenture

On November 19, 2012, the Company issued a US$2,000,000 ($2,002,000) subordinated secured convertible debenture maturing November 19, 2017. The convertible debenture bore interest at a rate of 2.0% per annum, payable at maturity. At the holder's option, the convertible debenture could have been converted into common shares of the Company at any time up to the maturity date, at a conversion price representing the market price of the shares. However, the conversion price was subject to a minimum of $0.50 and a maximum of $0.75 per common share (the "conversion price").

The convertible debenture was also convertible at the Company's option at the conversion price if the volume-weighted average closing price per common share for the twenty trading days immediately preceding the fifth trading day before such conversion date had been at least $1.20 and if a minimum of 50,000 common shares had been traded on the TSX Exchange during each of the twenty trading days taken into account in the calculation of the conversion price.

As noted above, the convertible debenture contained a conversion option that will result in an obligation to deliver a fixed amount of equity in exchange of a variable amount of convertible debenture when translated in the functional currency of the Company. Consequently, under IAS 32, *Financial Instruments: Presentation*, the convertible debenture was accounted for as a compound instrument with a debt component and a separate embedded derivative representing the conversion option. Both the debt and embedded derivative components of this compound financial instrument are measured at fair value on initial recognition. The debt component was subsequently accounted for at amortized cost using the effective interest rate method. The embedded derivative was subsequently measured at fair value at each reporting date, with gains and losses in fair value recognized through profit or loss.

On November 16, 2017, the Company received a notice of conversion from the holder of the convertible debenture. At that date, the debt component was at $2,816,548 including accrued interest of $267,545. The debt component was converted into 3,413,333 common shares of the Company at a price of $0.75 per share and accrued interest was converted into 263,918 common shares of the Company at a price of $0.97 per share. The embedded derivative had a value of $1,626,455. These two components were credited to share capital.

6. Shareholders' Equity

a) Share capital

During the six-month period ended February 28, 2019, following the exercise of stock options, the Company issued 100,000 common shares (608,250 common shares for the six-month period ended February 28, 2018) for a cash consideration of $44,000 ($164,196 for the six-month period ended February 28, 2018). As a result, an amount of $29,896 was reallocated from "Reserve – Stock option plan" to "Share capital" in shareholders' equity ($97,634 for the six-month period ended February 28, 2018).

b) Stock options

The changes in the number of stock options granted by the Company and their weighted-average exercise prices, for the six-month periods ended February 28, 2019 and 2018, are as follows:

	Six-month period ended February 28, 2019		Six-month period ended February 28, 2018	
	Number of options	**Weighted average exercise price**	Number of options	Weighted average exercise price
		$		$
Balance – Beginning of period	**5,695,000**	**1.10**	5,966,250	1.10
Granted	**530,000**	**0.83**	564,500	1.18
Exercised	**(100,000)**	**0.44**	(608,250)	0.27
Cancelled	**(523,750)**	**1.09**	(722,125)	1.41
Expired	**(471,250)**	**0.79**	(151,250)	0.68
Balance – End of period	**5,130,000**	**1.11**	5,049,125	1.17

The fair value of the options granted issued was estimated using the Black-Scholes option pricing model using the following assumptions:

	Six-month period ended February 28, 2019	Six-month period ended February 28, 2018
Risk-free interest rate	**Between 1.92% and 2.27%**	Between 1.44% and 1.91%
Volatility	**Between 47% and 56%**	Between 44% and 75%
Dividend yield on shares	**Nil**	Nil
Expected life	**0 to 5 years**	0 to 5 years
Weighted share price	**$0.83**	$1.18
Weighted fair value per option at the grant date	**$0.32**	$0.48

In addition, option valuation models require the input of highly-subjective assumptions, including the expected stock price volatility. Any changes in the subjective input assumptions can affect the fair value estimate.

6. Shareholders' Equity (continued)

c) Warrants

The changes in the number of warrants issued by the Company and their weighted-average exercise prices, for the six-month periods ended February 28, 2019 and February 28, 2018, are as follows:

	Six-month period ended February 28, 2019		Six-month period ended February 28, 2018	
	Number of warrants	**Weighted average exercise price**	Number of warrants	Weighted average exercise price
		$		$
Balance – Beginning of period	**-**	**-**	2,380,500	1.55
Expired	**-**	**-**	(2,380,500)	1.55
Balance – End of period	**-**	**-**	-	-

7. Net Earnings (Loss) per Share

The table below presents a reconciliation between the basic net earnings (loss) and the diluted net earnings (loss) per share:

	Three-month periods ended February 28,		**Six-month periods ended February 28,**	
	2019	2018	**2019**	2018
	$	$	**$**	$
Net earnings (loss) attributable to shareholders				
Basic and diluted	**(373,833)**	(1,267,219)	**718,481**	(2,202,783)
Number of shares				
Basic and diluted weighted average number of shares outstanding	**89,968,817**	89,488,789	**89,946,165**	87,651,491
Amount per share				
Basic and diluted net earnings (loss) per share	**0.00**	(0.01)	**0.01**	(0.03)

7. Net Earnings (Loss) per Share (continued)

Stock options are excluded from the calculation of the diluted weighted average number of shares outstanding when their exercise price is greater than the average market price of common shares or when their effect is antidilutive. The number of such stock options is presented below:

	Three-month periods ended February 28,		**Six-month periods ended February 28,**	
	2019	2018	**2019**	2018
Stock options	**4,560,500**	2,950,250	**4,260,500**	2,680,250

For the three-month and six-month periods ended February 28, 2019 and 2018, the diluted amount per share was the same amount as the basic amount per share, since the dilutive effect of stock options was not included in the calculation; otherwise, the effect would have been antidilutive. Accordingly, the diluted amount per share for these periods was calculated using the basic weighted average number of shares outstanding.

8. Additional Information on the Condensed Consolidated Interim Statements of Cash Flows

	Three-month periods ended February 28,		Six-month periods ended February 28,	
	2019	2018	**2019**	2018
	$	$	**$**	$
Changes in non-cash operating working capital items

Deferred lease inducements	**(24,040)**	(21,324)	**(47,483)**	(42,067)
	(901,574)	(474,168)	**(1,139,629)**	451,664
Supplementary information				
Unpaid acquisition of property, plant and equipment	**19,581**	46,649	**19,581**	46,649
Unpaid additions to intangible assets	**6,513**	690	**6,513**	690

	As of February 28, 2019	As of August 31, 2018
	$	$
Cash and cash equivalents		
Cash	**227,239**	1,031,017
Short-term investments	**10,116,238**	9,855,771
	10,343,477	10,886,788

9. Contractual Guarantees

During the normal course of business, the Company replaces defective parts under warranties offered at the sale of the products. The term of the warranties is generally 12 months. The following table summarizes changes in warranty provision:

	Six-month periods ended	
	February 28, 2019	February 28 2018
	$	$
Balance – Beginning of period	**137,420**	128,910
Provisions recognized	**36,000**	32,000
Amounts used during the period	**(40,888)**	(33,938)
Balance – End of period	**132,532**	126,972

This provision estimate is based on past experience. The actual costs that the Company may incur, as well as the moment when the parts should be replaced, can differ from the estimated amount.

10. Segmented Information

Segmented Information

The Company is organized into two segments: Medical and Industrial.

Medical segment: In this segment, Opsens focuses mainly on the measure of FFR in interventional cardiology but also supplies a wide range of miniature optical sensors to measure pressure and temperature to be used in a wide range of applications that can be integrated in others medical devices. This also includes licensing revenue related to its optical sensor technology.

Industrial segment: In this segment, Opsens' develops, manufactures and installs innovative fibre optic sensing solutions for critical and demanding industrial applications.

The principal factors employed in the identification of the two segments reflected in this note include the Company's organizational structure, the nature of the reporting lines to the President and Chief Executive Officer and the structure of internal reporting documentation such as management accounts and budgets.

The same accounting policies are used for both reportable segments. Operations are carried out in the normal course of business and are measured at the exchange amount, which approximates prevailing prices in the markets.

10. Segmented Information (continued)

Geographic sector's information

	Three-month periods ended February 28,		Six-month periods ended February 28,	
	2019	2018	**2019**	2018
	$	$	**$**	$
Revenues per geographic sector				
United States	**3,255,900**	2,196,001	**7,927,110**	5,069,076
Japan	**2,578,814**	1,284,130	**5,519,007**	2,653,234
Canada	**503,367**	475,636	**1,019,191**	972,027
Others*	**1,580,805**	1,486,259	**2,556,316**	3,111,292
	7,918,886	5,442,026	**17,021,624**	11,805,629

* Comprise revenues generated in countries for which amounts are individually not significant.

Revenues are attributed to the geographic sector based on the clients' location. Capital assets, which include property, plant and equipment and intangible assets, are all located in Canada.

During the three-month period ended February 28, 2019, revenues from two clients represented individually more than 10% of the total revenues of the Company, i.e. approximately 32% (medical's reportable segment) and 25% (medical's reportable segment).

During the three-month period ended February 28, 2018, revenues from two clients represented individually more than 10% of the total revenues of the Company, i.e. approximately 23% (medical's reportable segment) and 23% (medical's reportable segment).

During the six-month period ended February 28, 2019, revenues from two clients represented individually more than 10% of the total revenues of the Company, i.e. approximately 32% (medical's reportable segment) and 31% (medical's reportable segment).

During the six-month period ended February 28, 2018, revenues from two clients represented individually more than 10% of the total revenues of the Company, i.e. approximately 27% (medical's reportable segment) and 22% (medical's reportable segment).

11. Related-party Transactions

Key management personnel, having authority and responsibility for planning, directing and controlling the activities of the Company, comprise the Chief Executive Officer, the Chief Financial Officer, the President of Opsens Solutions Inc., and other vice presidents. Compensation of key management personnel and directors during the three-month and six-month periods ended February 28, 2019 and 2018 was as follows:

	Three-month periods ended February 28,		Six-month periods ended February 28,	
	2019	2018	**2019**	2018
	$	$	**$**	$
Short-term salaries and other benefits	**214,444**	288,401	**428,588**	732,854
Option-based awards	**10,851**	25,449	**21,702**	60,996
	225,295	313,850	**450,290**	793,850

The compensation of key executives is determined by the Human Resources and Compensation Committee, taking into consideration individual performance and market trends.

12. Subsequent Events

On February 27, 2019, Opsens announced that it has entered into a $8,000,000 credit agreement (the Agreement) with CIBC Innovation Banking (CIBC).

The Agreement consists of a $7,000,000 term loan, set to mature in 60 months with no principal payment for a 24 months period following the signature of the Agreement, bearing interest at prime rate plus 2.00% per annum and of a $1,000,000 revolving operating credit margin bearing interest at prime rate plus 1.00%, set to mature in one year and that may be renewed on an annual basis.

The disbursement of the $7,000,000 term loan occurred on March 1, 2019 and the revolving operating credit was also available at that time.

Deferred financing fees related to the Agreement includes professional fees and miscellaneous fees of $87,468.

On March 1, 2019, the Board of Directors authorized the grant of 1,300,000 stock options to an Officer and an executive of the Company, as provided by Opsens' stock options plan adopted by shareholders on January 24, 2017.

13. Approval of condensed consolidated Interim Financial Statements

The condensed consolidated Interim financial statements were approved by the Board of Directors and authorized for issue on April 10, 2019.
